### PALMER'S ORDER.

Persons desiring to know what kind of a "duck" John M. Palmer is, can find out by reading his military order for August election, 1865.

The order was issued by him after the surrender of the Southern forces, after peace had been declared, after worn and tattered sons of the Confederacy had taken the oath to be peaceable and law abiding.

It was simply the order of a dictator and would-be tyrant.

### PRONE TO DECEIVE.

A few days since a member of the Republican party said that he did not believe that his party had any desire to demonetize silver already coined but would recognize it as standard money and force its circulation as such and that if he thought different he would not only vote but would fight against his party but would fight against it, for he could conceive of no greater enmity than for any party to carry out the policy indicated in the letter.

The common definition of currency is "a paper circulation redeemable on demand in money." It differs from the word money in its general acceptance in as far as it expresses only that which passes as money at some time or place referred to.

We speak of a bank currency.

Every bank issued by a bank expresses a time and place where it can be converted into money. The same is true of all our National currency.

There is no paper currency in this country but expresses on its face the time and place at which it can be converted into money. For the first time in the history of the Republic there is a party openly trying to demonetize silver and to place it along with the paper currency of the country.

If it were possible to remove party prejudice any man with the most

borders reduced to tenancy and serfdom and a moneyed oligarchy ruling over the country of the once true and brave.

A Bryan Club has been organized at Kirkville. All those joining the club subscribe to the following:

KIRKVILLE, BRYAN CLUB.

We, the undersigned, believing in the principle of bimetallism at the rate of 16 to 1, pledge ourselves to support Bryan and Sewall, nominees of the Democratic party for President and Vice President of the U. S. A.

J. P. Long, President  
J. W. Moore, Vice-Pres.  
W. P. Prewitt, Vice-Pres.  
B. F. Tewis, Vice-Pres.  
J. B. Walker, Vice-Pres.  
Jno. Kelley, Vice-Pres.  
Nat Cottrell, Jr., Vice-Pres.

A. B. Faris, Secy.

There are 100 members. Will have meeting 3 o'clock, Saturday, October 18, 1896.

J. P. Long is a life-long Republican and has never acted with the Democratic party until this time. The same is true of John Kelley. They have one of the most wide-awake lodges in the county.

SAYS BRYAN WILL BE ELECTED AND POINTS OUT THE GOOD THEREOF.

Editor of the CLIMAX:

William Jennings Bryan will be elected President of the United States, on Tuesday the 3d day of November, 1896.

When he takes his seat at the White House, in Washington, D. C., on the 4th day of March, 1897, it will be a great and grand relief to know that the people of the United States will have a man, who will stand by the American people, and is in favor of American people dictating for America, without the consent of Great Britain, or any other Nation whatever. It seems strange that any man in America should be in favor of a gold standard, when he ought to know that it will not be detrimental to more than fifty million people, while it will not be of any great big benefit to the balance. Now let's see: In 1873, when the mints of the United States were closed to the coining of silver, property of all kinds went down, down, till the bottom went in 1878. Hogs sold here in Madison county at two and one-fourth cents per pound. We sold them in the Louisville market for \$70 and \$75 per hundred pounds in 1878. Next year 1879 Coggeshall had passed the Bland bill of '78 compelling the Secretary of the Treasury to coin not less than two million dollars per month of silver, and making it a legal tender for all debts, public and private, and what was the result? Notwithstanding John Sherman, one of the greatest enemies to this country, that even, and his followers cried out, "You will run all the gold out of this country to other countries, and such hard times will never be seen," gold sought investments. Why? Because it had sold as a comp. to, and hogs sold, 1878, in the market, for 34¢ per pound, 2¢ per more than in '78.

Then Mr. Watterson issues this challenge:

"Thee is not in all the world to-day a writer on the side of the single gold standard felon who would hazard his reputation as an honest man by asserting that the universal price contraction of this era is not the work of the single gold standard."

That admission therefore means exactly this—the gold standard is a universal and all-powerful instrument for the enslavement of production to capital.

The Courier-Journal, Aug. 10, 1886, bore witness against the gold standard in the following editorial:

"First—All rebel soldiers, whether paid or not, and without regard to the fact that they have or have not taken any of the oaths prescribed by law, or registered under orders from the headquarters of the Department of Kentucky.

"Second—All guerrillas and others who without belonging to the regular rebel military organizations, have taken up arms against the Government, or have in any way operated against the government or people of Kentucky, or any other State or territory.

"Third—All persons, who by act or word, directly or indirectly, have aided, comfort or encouraged to persons in rebellion. This applies to all persons who have voluntarily acted as scouts or spies for rebel or guerrilla forces who have voluntarily furnished any relief with food or clothing or horses or arms or money, or have harbored, concealed or otherwise aided or encouraged them.

"Fourth—All persons who were or have been directly or indirectly engaged in the civil service of the late so-called Confederate Government, or of the so-called provisional Government of Kentucky, or who have in any way submitted to either of said pretended Governments, all agents of or contractors with or for either of said pretended Governments are disqualified from voting."

All persons of the classes aforesaid are required to abstain from all interference with elections, and will, if they shall in any manner interfere therewith by voting or by appearing at the polls, be at once arrested and held for military trial.

Democratic Speeches.  
John B. Thompson, candidate for Con-

Morgan's Raid.  
Colonel Bennett H. Young and Captain B. T. Castleman, of Louisville, Ky., arrived in this city yesterday, evening after completing a mission that will attract considerable attention. Both were officers under General John Morgan, the Confederate raider, and were with him when he invaded Indiana and Ohio. To determine the actual distance they covered on that day, July 14, 1863, they journeyed to Clinton, Ind., a small hamlet near Sunman, Ind., where the start was made and Morgan and his men.

A High Tide of Contributions.

A large number of free silver articles, contributed by divers persons in Madison county, have been re-

ceived by the CLIMAX, and are being published as rapidly as time and space will permit. If any one feels neglected along this line, attribute it to the congested condition of the supply and not to any lack of desire on the part of the CLIMAX to publish.

According to Law.

Many have been anxious to know just what course our county officials will pursue in the matter of freeing the turnpikes and compensating the stockholders since the destruction of the gates. There seems to be no disposition on the part of the owners of the roads to re-establish the toll-gates, but the law will take its course as though nothing had happened. It is highly probable that a compromise will be effected at the next term of the Fiscal Court, which convenes here next Tuesday. Those which are not settled will come up at the October term of County Court. -Lawrenceburg News.

As a pledge of the nation that is dead and gone,

Keep it, dear friend, and show it.

Show it to those who will lend an ear.

To the tale this paper can tell,

Of liberty born, of patriots dream-

Of the storm clad nation that fell.

Too poor to possess the precious ores,

And too much of a prouesse to borrow,

We issue to day, our prouesse to pay,

And hope to redeem on the morrow.

These days rolled on and the weeks be-

came years,

But our collers are empty still;

Coin so rare that the Treasury quaked,

If a dollar should drop in the till.

But the faith that was in us was strong indeed,

As a pledge of the nation that is dead and gone,

Keep it, dear friend, and show it.
